

### **Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

#### **Listing of Claims:**

1. (Currently Amended) An inkjet printer cradle assembly including:  
~~a refillable an~~ inkjet cartridge having a pagewidth printhead, an ink supply, an ink delivery path directly between the ink supply and the printhead, and an ~~ink-refill-port-for receiving an ink-refill-cartridge~~ authentication device;  
a cradle body complementary to the inkjet cartridge, the inkjet cartridge being removably received in the cradle body, ~~the cradle body incorporating a retaining latch and resilient members for retaining the inkjet cartridge in the cradle body, the latch and resilient members being configured so as to enable refilling of the inkjet cartridge in the cradle body via the ink-refill-port of the inkjet cartridge;~~  
a data connection point fast with the cradle body for receiving data signals defining images for printing from an external data source; and  
~~a processor coupled to the data connection point and arranged to operate the pagewidth printhead in response to the data signals to print said images and to verify authenticity of the cartridge by communicating with the authentication device of the cartridge.~~
2. (Previously Presented) An inkjet printer cradle assembly according to claim 1 wherein the cradle body defines a recess to receive the removable inkjet cartridge.
3. (Previously Presented) An inkjet printer cradle assembly according to claim 1 further including a power connection point for receiving operative power from an external power source.
